prices prevail as last year. A few lines

of dried fruits and canned goods and navy

beans are slightly higher than last year,

but only in provisions are the high prices

noticeable. The iron and steel markets are

very active, but the range of prices is no

higher than at the corresponding period

of last year. Some lines of dry goods are

CATTLE QUIET AND WITHOUT IM-PORTANT CHANGE IN PRICES.

Hogs in Small Supply and Five to Ten Cents Higher-Sheep Quiet-Condition of Other Markets.

UNION STOCKYARDS, INDIANAPOLIS, May 3.-Cattle-Receipts light; shipments small. The marketing of cattle this week, considering the disturbing influence in the trade, has been of good volume, the total indicating a decrease of only about 300 compared with last week, 750 compared with the same week a year ago and an increase of over 1,100 compared with the corresponding week two years ago. Thus far this year the receipts are over 19,000 larger than the same period last year. From the beginnig of the week a feeling of uneasiness pervaded the market and values have been uncertain, but generally very unsatisfactory. The influence of the beeftrust agitation has been the greatest factor in forming prices, and without any doubt is responsible for the sharp decline, which has placed values below country cost. Ordinarily such conditions would have checked the receipts, but evidently shippers have anticipated a further reduction in prices, and it appears that they have sent forward more cattle on that account. This agitation has greatly reduced the conslaughterers have been of much smaller volume. Consequently it has been very difficult to consumate sales at current prices, and salesmen have had the hardest week's work in many months. Amidst their trying situation it was not unusual for salesmen to claim that they were having Alcohol, \$2.57@2.70; asafoetida, 40c; alum, 143 to accept \$1 per 100 pounds reduction from the camphor, 65@70c; cochineal, 30@55c; chlorothe high time, but this was probably putpure, 30@33c; indigo, 65@80c; licorice, Calab., ting it a little strong. There seems to be no question, however, that in extreme cases morphine. 14@16c; oil, castor, per gal, \$1.08@1.20; oil, bergathere was 75c decline, and both buyers Epsom, 1\(\frac{1}{2}\)\(\text{@4c}\); sulphur, flour, 2\(\text{@5c}\); seltpeter, 10\(\text{@16c}\); turpentine, 47\(\text{@35c}\); glycerine, 16\(\text{@20c}\); locide potassium, \$2.45\(\text{@2.56}\); bromide potassium, locide potassium, 15\(\text{@20c}\); borav (Circ.) are the weakest. The market for stockers and feeders has also been irregular, and a decline of probably 25c was registered compared with former prices. The demand on that basis was about equal to the supplies. were not many fresh arrivals of cattle to-

day, and naturally the market was quiet, but salesmen made a clearance at quotably steady prices compared with the way equal kinds sold yesterday. Representative sales indicate the class of stock on ers are expecting reduced supplies in the near future, and the natural result of this trade disturbance at his time the outlook is not as encouraging as it would be ordinarily. This week's receipts of hogs have been of fair volume, showing a gain of about 5,500 over last week, a decrease of over 5.500. and over 2,000 compared with the corresponding week two years ago. Thus far this year there is a decrease of a little less than 54,000 compared with the same period last year. For the week ending yes-terday local packers bought a total of 16,- 6.75; unshorn sheep. \$5.266; dressed mutton, 9@11c 20,224 the same week a year ago. During the same period the shipments were 1,779, against 2,859 the preceding week and 4,158 the corresponding week a year ago. There has been almost a general decline in prices this week and the average at the extreme close of the week is 15@20c lower than the opening. Influences which caused this were an exceedingly ilmited demand from outside sources and increased receipts here and elsewhere. Local packers were practially alone in the market most of the week and they took advantage of their opportunity to press prices; most of the decline a falling off in the receipts prices rallied 5@10c from the low time, which was on Thursday. The quality was fairly satisfactory compared with the average recently, but there was quite a scarcity of prime heavy hogs. Buyers discriminated more against light mixed hogs and pigs than other grades and pigs in some instances were possibly 50c lower. The highest price paid during the week was \$7.40 and the top at the low time was \$7.15. The receipts to-day were considerably smaller than the average at this time in the week and show a de crease of over 1,000 compared with a week ago and were not quite half so large as a year ago. The market opened with a continued limited demand from shippers and on account of the small supply packers were not free bidders, but intimated from the start that they would pay better prices than yesterday. Salesmen generally were asking at least 10c advance and rather early in the day succeeded in disposing of their consignments at funy 5@10c gain over yesterday. The improvement was most on the lighter grades, but this probably would not have occurred had there been a larger supply of good heavy hogs. Sales ranged

Bucks, per 100 lbs 3.90@4.00 APOLIS, May 3 .- Cattle-Receipts light; shipments none. The past week has been a

disastrous one in the cattle market, as far as the salesmen and producer were concerned. Good cattle are 30 to 50 cents lower than they were a week ago, while the common kinds are off 50 to 75 cents. The market has been dull and lifeless all week. The local demand has not been nearly so good as last week, and, as a result, salesmen have had difficulty in disposing of the common butcher stuff that has found its way to market at anything like satisfactory prices. Although prices were quoted steady to-day, salesmen hold out little hope for immediate improvement in the market. The

few offered sold promptly. The market
